PROFESSIONAL SUMMARY

Full Stack Web Developer and IT & Systems Engineer combining modern software development with extensive enterprise IT experience.

Hands-on experience with **Python, Django, HTMX, JavaScript, React.js, Node.js, Express.js, MERN, MongoDB, PostgreSQL, Firebase, REST APIs and cloud deployment.**

Experienced in **web application development, authentication, databases, API integration, responsive UI, cloud deployment, systems administration, technical support, enterprise mobility, networking and troubleshooting.**

Currently pursuing a **BSc in Information Technology** while building and deploying practical full-stack applications using modern development and AI-assisted workflows.

Target Roles: Full Stack Developer • Software Developer • Web Developer • Python Developer • Django Developer • React Developer • MERN Developer • Software Engineer • IT Systems Engineer

TECHNICAL SKILLS

Programming: Python • JavaScript • HTML5 • CSS3 • SQL • VBScript

Frontend: React.js • HTMX • Bootstrap • Responsive UI • Vite • TypeScript • Next.js

Backend & APIs: Django • Node.js • Express.js • REST APIs • Authentication • API Integration

Databases: MongoDB • Mongoose • PostgreSQL • Firebase • Firestore • Prisma • SQL

Cloud / DevOps: Git • GitHub • Vercel • Render • Railway • AWS Fundamentals • Cloud Deployment

AI Development: ChatGPT • AI-Assisted Coding • Prompt Engineering • AI Productivity Workflows

IT Infrastructure: Windows Server • Active Directory • Microsoft Exchange • Lync • Linux • Networking • VPN • Wi-Fi • MDM • POS

Support: Technical Support • Help Desk • Remote Support • Field Service • Troubleshooting • SLA • VIP Support • Project Rollouts

FEATURED PROJECTS

BookEasy — Full Stack Service Booking Platform | React.js • Node.js • Express.js • MongoDB • Firebase • REST APIs

- Built a full-stack appointment and service-booking platform.
- Developed authentication, booking and database workflows.
- Integrated APIs, payment and notification functionality.
- Deployed frontend and backend to cloud platforms.
- Live: <https://bookeasy-nine.vercel.app>

Mini Weather App — Full Stack Web Application | Next.js • React • TypeScript • Prisma • PostgreSQL • Authentication • Weather API

- Built a full-stack weather application with user registration and authentication.
- Integrated PostgreSQL using Prisma ORM and a live weather API.
- Implemented cloud deployment and production database workflows.

Developer Portfolio | HTML5 • CSS3 • JavaScript • GitHub Pages

- Built and maintain a responsive professional developer portfolio.
- Showcase software projects, technical skills, certifications and development work.
- Portfolio: <https://muvhangos.github.io/SamsPortfolio/>

PROFESSIONAL EXPERIENCE

Trade Link Retail Systems — IT Repair Technician | 2019 – April 2021

- Installed, configured and reimaged laptops, desktops and business devices.
- Troubleshoot hardware, software, operating systems and printers.
- Supported servers, networks and end users.

Gijima Technologies — Field Service Engineer

- Installed, configured and supported Linux, POS and merchant devices.
- Supported FNB, Standard Bank and enterprise environments.
- Delivered onsite, remote and help-desk technical support.

Dimension Data — AD & Messaging Engineer | Enterprise Mobility Engineer | 2014 – 2017

- Administered Active Directory and Windows Server.
- Supported Microsoft Exchange 2010 and Lync Server 2010.
- Managed AirWatch MDM and BlackBerry Enterprise Services.
- Supported VPN, Wi-Fi, ActiveSync and enterprise mobile devices.

T-Systems / SASOL — Migration Engineer | 2011 – 2014

- Supported Windows, Linux, networking and enterprise desktop environments.
- Delivered remote, VIP and SLA-based support.
- Migrated user profiles, data and applications.
- Supported AirWatch, Lync, Exchange and BlackBerry Enterprise Server.
- Participated in enterprise technology rollouts.

BCX / McCarthy Dealerships — Field Service Engineer | 2015

- Installed Linux systems, printers and business applications.
- Delivered help-desk and onsite technical support.
- Performed backup and user-data migration.

Belay Rapid Exchange — Field Service Engineer | November 2009 – May 2010

- Delivered multi-site technical support across South Africa.
- Supported Windows, Office, antivirus and business applications.
- Migrated PCs and user profiles into domain environments.
- Managed Active Directory changes and remote support.

Innovation Group — Technical Administrator | June 2007 – October 2009

- Supported enterprise systems, servers and project environments.
- Developed utility solutions using VBScript and SQL.
- Delivered technical and help-desk support.

NSA Security — VIP Guard, National Prosecuting Authority | 2002 – 2004

- Provided VIP protection and security support within the NPA environment.

Pro Store CC — General Labour / Technical Support | 1996 – 1998

- Supported operational activities and technical equipment preparation.

EDUCATION

BSc Information Technology — Current | Richfield Graduate Institute of Technology

Second-year studies: Database Systems • Programming • Cloud Computing • Information Systems • Computer Architecture • Networking • Web Technologies

Full Stack Web Developer Bootcamp — 2024–Current | Code College

Python • Django • HTMX • JavaScript • React.js • Node.js • MERN • Git • GitHub • Web Development

Introduction to Programming Bootcamp — 2024–Current | Code College

Matric — 1993 | Vele (Oprah Winfrey)

CERTIFICATIONS & PROFESSIONAL TRAINING

- AWS Solutions Architect — Udemy Academy | 2022
- Azure Fundamentals — AZ-900

- Fortinet NSE 1–NSE 3
- Microsoft MCID | 2023
- Cybersecurity Analyst — CySA+ | 2019
- CompTIA Security+ | 2018
- Mobile Device Management — AirWatch | 2019
- Microsoft Certified Systems Engineer — MCSE | 2008
- Microsoft Project — Damelin | 2012
- Fundamentals of Project Management — Damelin | 2011
- Lenovo Technical Certifications
- HP Technical Certifications
- Passport of Service Excellence — POSE — Bytes/Altron Technologies | 2012

CAREER TARGET & AVAILABILITY

Target: Full Stack Developer • Software Developer • Web Developer • Python Developer • Django Developer • React Developer • MERN Developer • Software Engineer • IT Systems Engineer

Availability: Full-Time • Contract • Freelance • Project-Based | **Work Preference:** Hybrid • Onsite • Remote

Location: Johannesburg, South Africa | Open to South Africa and international/remote opportunities.
